Internship Report:

CYBERSECURITY COMPETITIONS (CTF)

DGSSI NATIONAL CTF HACKATHON | TOP 10% NATIONWIDE — 53RD / 1,076+ TEAMS:
- Ranked Top 10% nationwide (53rd / 1,076+ teams) in a one-week intensive cybersecurity competition
- Solved hands-on labs in AI security, digital forensics, and Active Directory offensive security
- Worked on real-world scenarios involving system exploitation and investigation techniques

MUNDIAPOLIS CTF | 2ND PLACE / 15 TEAMS:
- Demonstrated strong skills in offensive security, problem-solving, and teamwork under pressure

ACADEMIC PROJECTS

CLOUD SIEM SECURITY MONITORING PLATFORM
- Built a Security Information and Event Management (SIEM) solution in a cloud environment
- Aggregated and correlated logs to detect anomalies and security incidents
- Implemented use cases for threat detection and incident response
- Enhanced visibility into security events and improved the threat detection process

FIREWALL & NETWORK SECURITY SOLUTION WITH OPNSENSE:
- Designed a virtualized network architecture with 4 virtual machines
- Deployed OPNsense as a central firewall
- Configured network zones: Public DMZ, Private DMZ, Client LAN
- Implemented filtering rules via OPNsense interface
- Controlled and secured network traffic between zones

NAC SOLUTION WITH PACKETFENCE & 802.1X AUTHENTICATION
- Deployment of a Network Access Control (NAC) solution
- Implementation of 802.1X authentication
- Integration with RADIUS server and Active Directory
- Dynamic network access management
- Securing user and device connections
